

Hilde Domin Programme 2024/2025

OVERVIEW

1

The German Academic Exchange Service (DAAD) administers the scholarship programme “Hilde Domin Programme” with funds from the Federal Foreign Office (AA). The programme serves to support students and doctoral candidates from across the globe, who are at risk of being formally or *de facto* denied educational or other rights in their country of origin, and to provide these students and doctoral candidates with an opportunity to begin or complete a study or research degree at a higher education institution in Germany. Students and doctoral candidates nominated and accepted under the programme will receive a scholarship for a degree course of personal choice and according to individual qualifications. The scholarship is sufficient to cover the necessary costs incurred during their study or research stay.

The long-term goal of the scholarship programme is to enable students and doctoral candidates to complete their higher education studies resp. research project in a secure environment, to be able to contribute towards meaningful political, economic as well as social development in their countries of origin (respectively in Germany or third countries) upon completion of their studies in Germany.

NOMINATION PROCEDURE

7

Potential candidates cannot themselves apply for participation in the Hilde Domin Programme but are nominated by the management (presidiums/rectorates) of an institution or organisation which is a legal entity domiciled in Germany and which carries out an activity in the field of science, research and teaching and/or the protection of human rights, the promotion of peace and democracy or the rule of law.

All nominations shall formally be made by respective nominating institutions and organisations, who are requested to fill in the nomination form [online](#) (currently only available in German). Nominations submitted through other channels (e.g. via email, post or fax) cannot be considered or accepted.

¹ In exceptional cases, and upon recommendation of the selection committee, participation in a „Studienkolleg“ can be funded before entering university at Bachelor's level. Candidates need to possess the necessary German language skills (B1 or B2 of the Common European Framework of Reference for Languages)

Thereafter, based on an initial plausibility check, suitable candidates will be contacted by the DAAD and invited to apply via the DAAD online application portal. Both the status of risk and academic performance are assessed as part of the selection process.

The final selection of candidates will be carried out by independent selection committees appointed by the DAAD.

Important to note:

- Multiple nominations do not bear any advantages. One nomination per candidate is sufficient.

The following applies to universities:

- It is strongly recommended that nominating universities should, if possible, offer candidates the opportunity to study at their own institution.
- If higher education institutions are unable to accept candidates themselves, a recommendation for an adequate course of study at an institution should be submitted.

The following applies to other nominating institutions:

- The institution must support the nominated candidate in finding a suitable degree programme.

SELECTION CRITERIA

8

After an initial plausibility check, suitable candidates will be contacted by the DAAD and invited to apply via the DAAD's application portal. During the selection process, both risk to personal security as well as academic performance are assessed.

The final selection round of candidates is carried out by independent selection committees appointed by the DAAD.

WHAT REQUIREMENTS MUST BE MET?

9

Potential candidates cannot apply independently for the scholarship, but instead must be nominated. In addition, candidates:

- must prove or credibly demonstrate a threat to personal well-being or safety (for example by physical violence, imprisonment, denial of civil and education rights etc.) to the nominating institution
- be in possession of educational certificates that allow access to a higher education institution and guarantee the completion of an intended course of study or research project according to the [anabin](#) database.
- may not be already residing in Germany or the European Union at the time of nomination

Important to note: Nominations for the fields of visual arts, performing arts, design, visual communication, music, film, and architecture can be submitted only by accredited higher education institutions and require a letter by that institution confirming the academic ability of the candidate in the foreseen discipline.

Please note that a specific test, usually IELTS or TOEFL, may be required for application to the universities. If no IELTS or TOEFL certificate is submitted with the application, a scholarship can only be issued on the condition that an appropriate certificate is submitted promptly. As a rule, the following certificates can be considered as proof of German language skills: TestDaF, DSH, German Language Diploma of the Standing Conference of the Ministers of Education and Cultural Affairs of the Länder in the Federal Republic of Germany (DSD), Goethe-Zertifikat, Austrian Language Diploma and telc Deutsch.
